RE: Parcel A-2, Silver Creek Village, Voluntary Cleanup Site #075, Park City, Utah

Dear Mr. Lowe:

The Division of Environmental Response and Remediation (DERR) has completed review of the *Sampling Recommendations, Parcel A-2, Silver Creek Village, VCP Site #075* (letter workplan), dated September 14, 2012. Based on the data and information submitted to date, the DERR's concerns, as noted in previous correspondence and discussions, have been addressed and the letter workplan is accepted under the Voluntary Cleanup Program. The DERR has no objections to implementing the letter workplan in the interest of moving this project forward and gathering additional information about the site. The U.S. Environmental Protection Agency concurs with the DERR's acceptance of the letter workplan.

Please keep the DERR informed of the field schedule as a DERR representative will be on-site to oversee the sampling and to collect split samples. If you have any questions, feel free to contact me at (801) 536-4092.

Sincerely,

Elizabeth Palmer, P.G., Project Manager
Division of Environmental Response and Remediation
